There must be think tank committee to come out with a blueprint for strategic development plan for Afrika and Afrikans(Diasporans) of how Afrika and her people should develop from Pan Afrikan perspective.

5. BUSINESS AND BANKING

6. AMBASSADORS TO AU AND AUYC

These ambassadors must play a role to persuade and push agendas of WWPAM to AU and AUYC for implementation and possibly take roles in such institutions until we eventually invade.

7. SPECIAL AMBASSADORS

These ambassadors should be tasked to reach new and existing Afrikan and Diasporan(Afro American and Pacific) governments and persuade them to use the "AFRIKAN BLUEPRINT" Stated in #4 above.

And affiliate organisations must also have these special ambassadors but in this case they will work to reach top most roles in governments, policing and military in order to pave ways for other members and possibly hold flagbearership of possible political parties in Afrikan states where there's no possibility of new government or oppositions getting into power.

In this revolution no Afrikan must be left behind. Because of this member organisations must be tasked to have provisions for entertainers and sports people to participate. If we don't have one we must create them to lead the struggle from another angle as our plan "B" to spark the mind of people, engage with the people and revolutionarise their mind towards Pan-Afrikanism. Because they have heavy influence on youths, there should be film making institutions to tell our stories in motion and work with existing film industries.

NOA suggest there Be ten (10) committees from WWPAM tasked to manage these ten(10) proposals, to conduct monitoring, evaluation and assessment, give reports and update Executive Members of WWPAM and it's affiliate organisations either weekly or monthly.
