

LMK CHARTER

“Activating the Grassroots for Real Political and Socioeconomic Change”

We, the people, have suffered for a long time. We have helplessly watched as confusions emanating from independence wars and wars of liberation give life to establishment of new oppressive regimes: hitherto unseen systems that camouflaged as redemption caucuses.

We have persevered, hopeful that a new Constitutional dispensation will rectify historical injustices, remedy social inequalities and bridge the economic gap. But, years later, that hasn't been so.

Our patience is not endless.

There time comes in the life of any nation when there remain only two choices —submit or fight. That time has now come to the grassroots. We shall no longer submit and we have no choice but to take charge and use all means in our power in pursuit of a dignified life for ourselves, our families, and our society.

At this monumental time, when the country is weeping over rotten, corrupt and myopic leadership that is pushing the nation on its death edge, the grassroots is now called upon to stand up and be counted. And in order for us to prepare in this direction, individuals and organizations that claim commitment to real change must come together and call for grassroots meetings at all places, all the times, to unify different sectors and forge a common struggle for a common good.

LIBERATION MOVEMENT KENYA is therefore taking the first step in reawakening and reminding the people their cardinal responsibilities in driving a conscious, healthy and wealthy nation. We are striking out along a new audacious road for change and we need you. We must take back our country from the scandalous corrupt and thieving impostors. The country, and Africa, deserves better. We appeal for support and invite all grassroots-oriented leaders willing to fight and take over governance and policy-making institutions, through the ballot or otherwise.

The unified set of demands entrenched in the Kenyan Constitution requires that we take the responsibility to pursue our life desires with dignity in fulfillment of our common dreams: the dream for equality, respect for

human dignity and quality life, as envisaged by the founding fathers of this continent and spelt out in Article 43 of our Constitution.

We, LMK, in adopting this charter hereby pledge ourselves to strive together, sparing neither strength nor resources until our social and economic rights have been significantly attained.
